You will be taking a driving tour in your own cars through some of Northern Dutchess County's scenic roads during the beginning of Spring. Along the way you will learn tidbits of local history. You will also be given a set of treasure hunt-like questions to answer while you are driving, for fun and prizes. These trips are also known as road rallies, but with a less serious side.

How it works: We'll need teams of 2 to 4 people per car. Form your own team, or we'll find a car for you. One member of the team will be the driver, the others navigators/look-outs. You meet at the starting location. At the starting location you will be given a set of easy-to-follow driving directions which also will include the history and the questions. The drive will be about 35 slow miles, taking about 2 ½ to 3 hours. You will be driving at or below the speed limit on mostly back roads. There will be places along the way for a break if you wish. Lunch ahead is on your own. There will be a small reception at the end. We'll correct the questions and let you know the winning team, with prizes for the winners. Cost is **\$5 per person**
